Toro NSN's Field Trainer will instruct this two-day class. Learn Lynx® and hone your skills. Each student will use a computer and will receive a manual with needed information and resource aids. Interact with other Lynx users.

Many have prepaid class tuitions from extended support plans with NSN. Lunch both days and dinner the first evening will be provided by NSN. Maximize your irrigation investment by attending!

GCSAA Accredited Classes. Please contact your TM now to ensure a slot in the class.
